

ART & MUSIC, KLOSTERS

PATRONS' ASSOCIATION

Information

«With a symphony of distinguished performers, an intimate concert atmosphere and the magic of the mountains, we create unforgettable cultural moments.»

Welcome

The summer concerts in Klosters, which have taken place since 2017 from the end of July to the beginning of August have been very popular with guests from near and far, with the local population and with second home owners.

Due to the success and popularity of the concerts, the Artistic Director, David Whelton, the Board of the Association and some of the largest donors believed it was imperative that the organisation be restructured on a more formal basis with a greater degree of professionalism in order to secure the long-term future of the concerts.

That's why at the end of February 2019 it was resolved to establish the new Foundation Art & Music, Klosters. In future, this Foundation will hold summer concerts from the end of July until the start of August under the title Klosters Music at various venues in Klosters. The Foundation's goal is to develop a sophisticated cultural offering from what already is a very high level.

Our Patrons' Association Art & Music, Klosters will actively support the summer concerts and, in future, other events in Klosters. In this way we would like to enhance the attractiveness and appeal of Klosters and its surroundings together with local partners.

On the following pages we are delighted to inform you of our goals and the benefits for you as patrons and friends.

I look forward to sharing inspiring moments with you and invite you in the name of the Management Board to join our new Patrons' Association.

A handwritten signature in black ink that reads "D. Lütjens". The letter "D" is enclosed in a circle.

Daniela Lütjens
President

Purpose

The purpose of the Patrons' Association Art & Music, Klosters is to support the activities of the Foundation Art & Music, Klosters both financially and creatively. This year the support is primarily for the production of the Klosters Music summer concerts from 26 July until 4 August 2019.

However, the mission statement of the newly established Art & Music, Klosters Foundation is as follows (extract from the Charter):

«The aim of the Foundation is to hold concerts, festivals, exhibitions, readings and other cultural events in Klosters or its environs. In this context, there will also be the potential to contribute to the training and encouragement of artists, musicians and authors, particularly of young performers and creators, without geographical restrictions. The Foundation can furthermore support all types of projects and programmes that further this purpose. To this end, the Foundation can also actively seek out donors, sponsors and patrons. The fulfilment of this purpose should also further the promotion of Klosters and its environs as a location.

The Patrons' Association Art & Music, Klosters will actively support the Foundation.

Any profit realised from the pursuit of the charitable purpose (proceeds of concerts and other events) is used exclusively for the pursuit of this purpose and the perpetuation of the Foundation. The Foundation exclusively pursues charitable purposes, is set up altruistically and not for any gainful activity. It fulfils its purpose charitably and is not profit-oriented.»

How we see our future

Klosters Music Positioning

exquisite

Our excellent contacts within the music scene and personal connections to the best classical music artists guarantee the planning of an exquisite programme at the highest artistic level.

international

When engaging our artists for the Festival programme we are guided by international standards. So we aspire to an international reach for Klosters Music.

informal

The intimate setting of our concerts and the informal atmosphere of their surroundings raise our concerts above other events and enable unexpected encounters between artists and the public.

unifying

Klosters Music wants to build bridges between artists and the public, between second home owners and locals, between culture and tourism as well as between Klosters, the Prättigau Valley, Grisons and the world.

inspiring

The sublime alpine mountain environment around the Grisons holiday resort of Klosters inspires artists and the public alike. Far away from the hustle and bustle and the daily grind, our cultural events should inspire and enrich the senses, the spirit and the soul.
